

Instructions for Wonderful Romance Anniversary Card

Step 1 - Cut all your cardstock and foil according to the supply list. Score the 5 ½" x 8 ½" piece of thick Whisper White cardstock at 4 ¼". Fold on score line and burnish to make your card base of 4 ¼" by 5 ½".

Step 2 – Position your stamps and cardstock on the Stamparatus . Be sure to use the embossing buddy on the piece of cardstock that you are going to stamp Happy Anniversary on. Stamp all your images and sentiments. Use Memento Tuxedo Black Ink for the flower spray and Costal Cabana for everything else. Next stamp the Happy Anniversary Stamp again with Versa Mark Ink. Sprinkle with Clear Embossing Powder. Tap off excess and then heat until shiny with the heat tool.

Step 3 – Use the Stampin Blends to color the flower spray as shown on the video or with any colors you choose.

Step 4 – Adhere the Sizzix Adhesive Sheet to the back of the foil sheet. Then position the Florentine Thinlit die over the right side of the foil, (sharp side of die toward cardstock) and run through the Big Shot. Remove all loose pieces. Remove the protective sheet from the back of the foil sheet so you can adhere to the 4" x 5 ¼" piece of Costal Cabana that is not stamped. Lay aside. Place the floral spray die on the colored flower spray and run through the big shot.

Step – 5 Trim your Happy Anniversary Sentiment to ¾" by 3 ¼" and then glue to the Whisper White piece measuring 1" by 3 ½". Put dimensionals on the back of this sentiment piece as well as the floral spray. Lay aside.

Step – 6 Glue the 4" x 5 ¼" Costal Cabana piece with the sentiments stamped on it to the right inside of the card. Once you have done that take the piece of Costal Cabana cardstock with the Florentine Foil design on it and glue to the front of the card leaving about 1/8" border of the Whisper White card base showing. Next position your floral spray and sentiment to get an idea of where you want to place then and then you can remove the protective coverings on the back of the dimensionals. Adhere the floral spray and sentiment to the card. Lastly glue your little whisper white bow to the lower end of the flower spray with glue dots.

All finished and ready to mail or sell!
