

Printable Instructions for Beauty Abounds Friendship Card

Step 1- Cut all your cardstock according to the measurements in supply list.

Step 2- Take the two sheets one Bermuda Bay and one Basic Black both measuring 4 ¼" x 5 ½" and prepare to run through the Big Shot with the Butterfly Dies. If you are choosing to use the Sizzix Adhesive sheets now is the time to put on the back of these two pieces of cardstock. Remove the printed side of the adhesive sheet and apply to the back of cardstock pieces. Next place one piece of the cardstock and one butterfly die on the top of it with sharp edges down and run through the Big Shot. Note: You will have a cutting plate, cardstock, die on top of that and a plate on top of the die. You need to decide whether to use the same butterfly die or use one of each die to layer the butterflies when assembling the card. My card shows the same die and you can see a comparison in the video. Which ever you prefer will be fine. You might want to run a couple pieces of cardstock through the Big Shot to see what you like. If you don't want to use the adhesive sheets, then just run your cardstock through the Big Shot and you can apply glue later. Remove all loose pieces with a brush or some kind of pointy tool.

Step 3- Stamp your sentiment on one piece of the Daffodil Delight for the inside of the card. Add a butterfly stamp in the right lower corner.

Step 4- Take the Daffodil Delight piece that is not stamped and glue to one of the Basic Black pieces measuring 4 x 5 ¼". Now take which ever Butterfly design you choose out of Bermuda Bay and adhere to this piece on top of the Daffodil Delight. If you have used the Sizzix adhesive sheet remove the last protective layer and position on your card. If using glue simply spread small amount of glue on the underneath side of your butterfly and then adhere to the Daffodil Delight. Repeat this process with the Black Butterfly.

Step 5- Glue this piece to the front of the Bermuda Bay card base measuring 5 ½" x 8 ½" scored at 4 ¼".

Step 6- Now take the Daffodil Delight piece with the stamped sentiment and butterfly and adhere it to the last piece of Basic Black cardstock. Next adhere this combined piece to the right side of the inside of the card.

Now you are finished and have a nice card anytime you want to put a smile on your friends' face.
