### Ink

So Saffron Ink Pad  
Mossy Meadow Ink Pad  
Early Espresso Ink Pad

### Embellishments

Linen Thread for Bow  
Gold Metallic Thread to put under bow  
Wink of Stella Glitter Pen

### Adhesive

Tombow Liquid Multipurpose Glue  
Stampin' Dimensionals  
Glue Dots

## Tools

Stampin' Trimmer

Stamparatus

Bone Folder

Scissors

Big Shot or other die cutting machine

## Instructions

Step 1. Cut all the pieces according to the measurements except the pieces that have to be cut with a die.

Step 2. Stamp the sentiment Get Well Soon with Early Espresso onto a piece of So Saffron Cardstock big enough to cut the smallest scalloped square frame. Next stamp the inside sentiment with Early Espresso Ink onto the piece of Very Vanilla cardstock cut 3 ¾" x 5". Also stamp the sprig image in the lower right corner. Now stamp the flower image onto a piece of So Saffron cardstock with the So Saffron Ink. Lastly stamp leaves with Mossy Meadows Ink onto pieces of scrap Whisper White cardstock.

Step 3. Now fussy cut the flower out as well as three sets of leaves. If you have a leaf punch you can cut the gold leaves with the leaf punch or just cut three gold leaves with a pair of scissors.

Step 4. Use the Wink of Stella Clear Glitter Pen to brush over the flower. Don't linger in any one place too long as it could cause the image to blur. Lay aside.

Step 5. Now cut out all the die pieces. Be careful to center the "Get Well" sentiment in the smallest square die. Tape edges in place before running through the die to prevent slippage if you need to. Die sizes and colors above in product list.

Step 6. Now glue the flowered designers series paper to one piece of the Early Espresso measuring 4" x 5 ¼".

Step 7. Glue So Saffron circle to Early Espresso circle with the scalloped edges using multipurpose glue. Lay aside. Glue gold square to Early Espresso scalloped edge square. Next glue the So Saffron stamped with sentiment to the gold square. Lay aside.

Step 8. Take the Very Vanilla piece with the inside stamped sentiment and glue to the other piece of Early Espresso cardstock. Next glue this piece to the inside of the card base.

Step 9. Now take the piece with the “Get Well” sentiment and glue to the left upper corner of the flowered piece prepared for the front of the card.

Step 10. Position the circle piece on the right side of the flowered designers series paper. Now once you are satisfied with the position, glue into position or use dimensionals to put on back of circle and lift it up.

Step 11. Position leaves around the circle and lay the flower on top to see where you want to put them. Lay the flower aside and carefully glue the Mossy Meadow leaves into position. Next use a dimensional and put on the back of the Gold Leaves and after removing protective covering place one on top of each set of Mossy Meadow leaves. Now put dimensionals on the back of the So Saffron Rose and place on top of the leaves. Once you are satisfied with the position, remove the protective coverings and adhere to the circle.

Step 12. Take this front piece and glue to the front of the card.

Step 13. Place a glue dot in the center bottom of the “Get Well Sentiment”. Now take the Metallic Gold Thread and wrap around your two fingers several times, twist and place on top of the glue dot. Place another glue dot on top of the thread in the center.

Step 14. Tie a small bow out of the Linen Thread and put the bow on the last glue dot.

Lots of steps but a card well worth the effort. Remember you can use a much or as little embellishment as you wish.

Happy Crafting!!!
