### Directions for Card Assembly

Step 1. Cut and score all your cardstock according to measurements above.

Step 2. Put the piece of Very Vanilla Cardstock measuring about 3" x 5" on your Stamparatus. Now take one of the longer Christmas bulb stamps and position in the center of the piece of Very Vanilla cardstock. Rub the embossing buddy over the cardstock, (blow away any excess powder), and then stamp with the Mossy Meadow color. After dry go over the image with the embossing buddy again. Now stamp with the Versamark ink. Make sure your image is covered well. Next sprinkle the clear embossing powder over the ink. Turn on your heat tool so that it can warm up. Tap back of cardstock to remove excess powder and you might need to blow across the image to remove powder. Next hold the heat gun over your image and as soon as it melts the embossing powder move to another area. **Do not hold for too long in any one spot as you will may scorch your paper.** The embossing powder will melt quickly once the heat tool is warm. Now take your third largest Stitched Nested Label Die and cut out image by placing die over the image and running through your die cutting machine.

Step 3. Now stamp your holly image on a piece of Whisper White Cardstock with Memento Tuxedo Black Ink Pad. Color the leaves with the Dark Mossy Meadow Blends and the berries with Real Red Dark Blends. Fussy cut out with your scissors.

Step 4. Stamp your inside sentiment on the piece of Very Vanilla cut to 3 ¾" x 5" using the Mossy Meadow Ink Pad.

Step 5. Now you are ready to assembly. First take the striped DSP from the Brightly Gleaming DSP set measuring 3 ¾" x 5" and glue to one piece of the Mossy Meadow Cardstock. Now glue the piece of paper that has ornaments on it from the Brightly Gleaming DSP set cut to 1 ¾" x 5" on the left side of this same piece leaving a little border on the left if you choose. Next take this piece and glue to the card base.

Step 6. Now take the holly and glue to the top of the bulb. Take this label with the embossed bulb and put Stampin' Dimensionals on the back. Remove the protective coverings and attach to the front of the card base.

Step 7. Lastly take the inside sentiment piece and glue to the other piece of Mossy Meadow cardstock. Now glue to the inside of the card base.

Finished!
