Directions for Card Assembly

Step 1. Cut and score all your cardstock according to measurements above.

Step 2. Take your small piece of Whisper White cut to 4" x 5" and position on the Stamparatus. Lay the candle stamp on top of it in the center. Lay your Stamparatus plate on the stamp so it will be picked up in the correct position. Take the embossing buddy and rub across the cardstock. Blow away any excess. Now cover your stamp with Versamark Ink. Make sure you get a good image. Sometimes I stamp it twice just to be sure. Now sprinkle the silver embossing powder over the image covering well. Tap excess embossing powder onto a scrap piece of cardstock so you can put it back in the jar. Turn on heat tool. While heat tool is warming up, tap the back of your image or blow across it to remove any loose powder. Now take the heat tool over your image until it starts to melt. It will melt quickly once the tool is hot. Move on to another area as soon as it is melted so you do not scorch it. Turn off heat tool.

Step 3. Next you will need the piece of Whisper White cardstock measuring 3 ¾" x 5". Prepare the inside sentiment in exactly the same manner as the front image if you choose to emboss it in silver. If not, stamp the sentiment in Blueberry Bushel and the small Poinsettia's at the bottom in the Memento Tuxedo Black. It is up to you!

Step 4. Color the front image as well as the Poinsettia's on the Whisper White for the inside of the card.

Step 5. If you have not punched out your banner do this now.

Step 6. Take the silver foil and place in the embossing folder and run through your die cutting machine. Trim to 3 ¾" x 4 7/8".

Step 7. Take the largest smooth oval die and cut out the candle image. You will cut off a tiny bit of the ribbon on the left side. The die isn't quite big enough to get the entire image.

Step 8. Glue the inside sentiment piece to one piece of Blueberry Bushel Foil cut to 4" x 5 ¼" for layering (Noble Peacock Foil). Now glue that union to the inside left half of the card base.

Step 9. Using tear & tape put several strips down the back of the banner. Remove protective coverings and adhere to the center of the embossed silver foil piece. Take that union and go ahead and glue to the other piece of Blueberry Bushel Foil. Lastly take the oval image piece and put Stampin' Dimensionals and adhere to the back of this piece. Remove coverings and place in the center of the banner.

Step 10. Adhere this front piece to the card base and you are finished.

It is beginning to look a lot like Christmas!
