Adhesive

Multipurpose Glue

Punch

Delightful Tag Topper Punch

Tools

Bone Folder
Paper Trimmer
Simply Shammy (to clean stamps)
Scissors
Stamparatus or choose acrylic blocks
Stampin' Cut & Emboss Machine

Instructions

1. Once you have cut and scored the paper go to the second score line and fold toward the center. Do the same from the opposite side. Now take the first and last score line and fold in the opposite direction. If this is difficult to understand just look at a clip of the video. It will be easy to see how to do this.
2. Put glue on two sides and the bottom of the piece of Basic White measuring 2 $\frac{3}{4}$ " x 3 $\frac{1}{2}$ ". Next place this piece of Basic White measuring 2 $\frac{3}{4}$ " x 3 $\frac{1}{2}$ " to the center of the **back** of the card base. Put the side with no glue at the top. Take a piece of Basic White 2" wide and stamp Merry Christmas on. Using the Delightful Tag Topper punch slide your 2" piece of stamped Basic White into the punch to make a pretty tag on one end. Use a small piece of bakers twine or ribbon to thread through the hole. Adjust the length of the tag to put in back of card base pocket.
3. Using the Tuxedo Black Momento Ink stamp the snowmen about $\frac{1}{2}$ " or a little more up from the bottom of the basic white piece of cardstock. Using the blends color the snowmen.
4. Cut the snowmen to 2 $\frac{7}{8}$ " x 4". Remember to cut it so that there is a border of white at the bottom and a little space above the bird so that it will fit onto your card base.
5. Stamp your sentiment, "Warm Winter Wishes" in either black or basic gray. Using small label die from the Pretty Pillowbox Dies, cut out sentiment by running through your die machine. Lay aside.
6. Glue the snowmen panel in the center of the card base. Next glue the basic gray panels measuring 1" x 4" to each side of the snowmen being careful to line up. Lastly glue the 2 pieces of the Peaceful Place designers series paper cut to 1" x 4" on the outside flaps.
7. Now glue the piece of Peaceful Place designers series paper cut to 1" x 5 $\frac{1}{4}$ " on the piece of Real Red Cardstock cut to 1 $\frac{1}{4}$ " x 5 $\frac{1}{2}$ " for bridge.
8. Glue the sentiment in the center of this piece.
9. Now put glue on one end of the bridge piece about $\frac{3}{4}$ " from end and glue to the first flap near the bottom of the card. Next put glue on the far right of the bridge about $\frac{3}{4}$ " from the end and glue to the last flap.
10. Now you are done. Just lay to one side flat and it will go in you're A-2 envelope.

Envelope (Optional)

Using your tape runner put tape on the top side of the flap of the envelope. Carefully lay your piece of DSP (Designer Series Paper) measuring 2 $\frac{3}{8}$ " x 6" on the flap starting at the fold of the flap. Trim and you are done!

Stampin' UP does not sell these but they are very helpful in card making

Reverse tweezers with pointed tip

Tombow Mono sand and rubber eraser combo

Adhesive Remover (2"x2" block")
