## Instructions

1. I think the easiest way to cut the designer series paper and the Garden Green triangles is to make a template to the measurements as shown in the drawing above. Measure down 1 ¼” and mark with a dot, then measure up 1 ¼” and mark with a dot. Then draw a line to the corners as shown. Cut on the two lines and you will have a correct template. When cutting the designers series paper make sure the direction of your print is going in the right direction.
2. Cut the other pieces to the measurements above.
3. Stamp the flower image on the piece of Basic White thick Cardstock cut to 3 ½” x 3 ½”. Using the smooth circle, that cuts out 2 3/8” diameter circles, place die over the upper part of the stamped image and run through your die cutting machine. While you have your die cutting machine out, cut a 2 ½” scalloped circle out of the Cajun Craze cardstock measuring 3 ½” x 3 ½”, and a 2 5/8” smooth circle out of the Basic Black cardstock 3 ½” x 3 ½”.
4. Color the flower image using the Light Cajun Craze and the Dark Shaded Spruce Blends.
5. When finished coloring, glue the flower circle onto the Cajun Craze Circle and then glue to the Basic Black Smooth Circle. Lay aside.
6. Take your top Garden Green triangle and glue to the top of the piece of light weight cardstock or even a sheet of computer paper cut to 4” x 5 ¼” will be ok. Be careful to put your glue on the correct side. It is a good idea to layer your pieces over the light cardstock measuring 4” x 5 ¼” so that everything is turned correctly when you start gluing. After the first triangle is glued in place glue the designers series paper so it is flush against the triangle. Lastly glue the bottom triangle in place. Once you have done that, check all your edges to see if any of them need to be trimmed. Don’t trim off too much or your triangles won’t look like triangles.
7. Now that you have that piece on a sheet of light weight cardstock you can glue it to the Basic Black Cardstock cut to 4 1/8” x 5 3/8”. You will have a tiny Basic Black border. Glue this entire piece onto the card base and you will have another tiny white border.
8. Stamp your Happy Birthday sentiment onto the piece of Basic White thick Cardstock cut to 3 ¾” x 5”
9. Glue the stamped inside sentiment piece to the last piece of the Basic Black cardstock cut to 4 ” x 5 1/4” and adhere to the right inside of the card base.
10. Now take your flower image stamped on the circles and put dimensionals on the back of the piece. Remove coverings and adhere in the center of the designer series paper on the front of the card.
11. Add three of the Champagne Rhinestones.

12.All finished!

### **Optional Decorating of Envelope Flap**

Using your tape runner put tape on the top side of the flap of the envelope. Carefully lay your piece of DSP (Designer Series Paper) measuring 2 3/8" x 6" on the flap starting at the fold of the flap. Trim and you are done!
